

MGM Research Faculty

	Work phone	Research interests	email address
Ahmed ,Chulbul M., Ph.D.	273-5070, 273-5083		ahmed1@ufl.edu
Bubenik ,Jodi L., Ph.D.	273-8155, 273-8156		jbubenik@ufl.edu
Cleary ,John D., Ph.D.	273-5847	Molecular mechanism of disease-associated microsatellite disorders	john.cleary@ufl.edu
Fisher ,Christopher , Ph.D.	273-8608	papillomavirus genome maintenance, virus interaction with the DNA damage response, and antiviral drug discovery	ctopherfis@ufl.edu
Larkins ,Christine E., Ph.D.	273-8101	Cellular and molecular mechanisms of sexual differentiation and external genitalia development	christinelarkins@ufl.edu
Moussatche ,Nissin , Ph.D.	273-7513, 273-5978, 273-6213	Vaccinia virus transcription and replication using a molecular genetics approach	nissin@ufl.edu
Zhu ,Shu , Ph.D.	392-9784, 392-9785	Norovirus pathogenesis and protective immunity	jeffzhu@ufl.edu
Zu ,Tao , M.D.	273-5847	A variety of neurodegenerative diseases, including myotonic dystrophy (DM) and spinocerebellar ataxia type 8 (SCA8), are caused by microsatellite expansion mutations.	taozu@ufl.edu
